PROFILE

Senior Technical Writer, Information Architect, & UX Advocate | 20+ Years
Bridging RD & Global Customers | B2B/B2C Content Strategy | Technical
Editor for API & Developer Docs.

WORK EXPERIENCE

CyberLink Corp - New Taipei City, Taiwan

Senior Technical Writer/Assistant Project Manager

2006-2026

- Design the information architecture and author clear, concise end-user help documentation, quick-start guides (QSGs), and webhelp content using Help + Manual and Adobe FrameMaker to optimize the user onboarding journey for millions of B2C users.
- Review and clarify complex B2B API documents submitted by R&D teams, translating dense technical code logic into clean, user-friendly reference materials for developers.
- Audit user interface (UI) text and string files across multiple B2C apps and B2B platforms, ensuring digital product language remains intuitive, helpful, consistent and grammatically precise.
- Manage the structural lifecycle and deployment of technical setup guides using Git version control systems to ensure seamless release synchronization.
- Coordinate with Product Managers (PMs) to validate product release notes against final software specifications, while collaborating with Customer Support teams to audit post-launch FAQ knowledge bases for new software releases.

Online Business Systems - Winnipeg, Canada

Technical Writer/QA & Business Analyst

1998-2006

- Authored system and help documentation, mapped business requirements, and executed software quality assurance (QA) protocols for diverse client consultation projects.

EDUCATION

- Red River College - Creative Communications, 1998
- University of Manitoba - Bachelor of Arts, 1994

CORE COMPETENCIES & TECHNICAL STACK
